Did You Know?

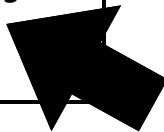

**Lincoln Elementary
sits on what used to be
a funeral home!**

**In 1966,
Flanagan Reed and Hull
Funeral Home was demolished
to make room for Lincoln.**

PreKindergarten Preregistration

**If you have a child
who will be 4 years old
on or before August 1,
2008, you may sign
him/her up for
PreKindergarten.**

Preregistration will take place at the same times and locations as Kindergarten Registration. You will need to go to your neighborhood school the evening of **Monday, March 3, from 6:30 to 7:30 p.m.** You may also go to the school office **March 4-6, from 9 a.m. to 2 p.m.** Please bring your child's birth certificate, immunization records and a proof of your residency (such as a utility bill or lease agreement). You will receive screening information at a later date, and you will be notified if your child is eligible in May.

The PreK staff will have more information concerning the actual class sites, fees and transportation during preregistration. Classes meet Monday through Thursday for a half day. There is no before or after school care, and income determines weekly fees.

Please call Linda Hallum at 376-4217 if you have questions or want additional information. We look forward to seeing you!

Rudy's Soap Box...

*I Don't Subscribe to Mainstream
Society's Collective Concept of
Able-bodiedness*

(Part 2 of 2)

I'm out there to pave a road for the "long shots," people who aren't as fortunate as I. I have friends and family who know that my Asperger's Syndrome does not wholly define me, yet they are aware that it is a mere facet of my multi-faceted self. They treat me as if I am a fellow member of the human race. Because I AM a fellow member, BY GOLLY!

I'm out there to challenge the concept of eugenics and dysgenics. Eugenics ("good" or "strong" genes, to the layman) is an adopted concept of mainstream society, which is, of course, the collective view on who is and who isn't able-bodied. Dysgenics is the exact opposite, since goodness knows how long I have come across people who would consider me a walking study in dysgenics, a Grade A, first-class, A.1 degenerate.

With my strong awareness of self and thirst for bettering myself, I have proved many people wrong over the years, even just over the past three-sixty five. Ever evolving and ever observant of the world around, I am just past my period of emergence. People are finally noticing. Ladies and germs, lo and behold, the Silver Surfer has landed!

Excelsior!
